SUMMARY

Computer Science undergraduate (Class of 2028) at Chandigarh University specializing in AI & ML. Hands-on experience building full-stack web applications with React, Node.js, Express and real-time WebSocket systems. Strong foundation in C, C++, Python and JavaScript with working knowledge of REST APIs, databases and Git.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, HTML, CSS
Frameworks & Libraries: React.js, Node.js, Express.js, Socket.io, Tailwind CSS
Tools & APIs: Git, REST APIs, MySQL, Google OAuth 2.0, YouTube Data API v3
Other: Data Visualization, Generative AI, Prompt Engineering

EXPERIENCE

Auspify Technologies - Machine Learning Intern

Remote | Oct 2026 - Present

- Task-based ML internship (any 4 of 6 tasks for the completion certificate); first task completed and tested.
- Built a content-based Netflix recommender (TF-IDF + cosine similarity, 8,790 titles); 93% of recommendations share a genre with the query title.

PROJECTS

YouTube Remote Control System

Full-Stack Web Application | React.js, Vite, Node.js, Express.js, Socket.io, Google OAuth 2.0 | github.com/god1arpit/youtube-controler

- Built a real-time remote control web app to search, play, and pause YouTube across desktop and mobile devices.
- Implemented WebSocket live sync, QR-code device pairing and LAN IP detection; integrated Google OAuth 2.0 and YouTube Data API v3 for secure search.

BuildTrack - Construction Labour & Site Management Platform

Full-Stack Web Application | React.js, Node.js, Express.js, Python, FastAPI

- Built a multi-role platform (builder / supervisor / labour) with attendance tracking, automated wage calculation engine, expense management and site photo reporting.
- Implemented JWT authentication with role-based access control; fixed security issues including a role-escalation vulnerability on public registration.

HYDRO GUARD - Smart IoT-Based Water Overflow Control

IoT Project | Patent Filed November 2025

- Designed an IoT-based automated solution for efficient water overflow control in reservoirs; patent application filed with the Indian Patent Office (Application No. 202511113771).

Collegia App - UI Redesign

UI/UX Redesign Project

- Redesigned the complete Collegia app interface with intuitive flows for attendance, marks, CGPA and timetable tracking.

EDUCATION

Chandigarh University

B.E. Computer Science (AI & ML), 2024 - 2028

Guru Harikrishan Public School, Karnal, Haryana

Class XII - 81%

CERTIFICATIONS

- Microsoft - Advanced Data Analysis with Generative AI
- IBM - Data Visualization with Python; Generative AI: Prompt Engineering Basics
- Google - Prompting Essentials

COURSES

- Apple - App Development with Swift (Develop in Swift course, Chandigarh University, 2026)
